## General

### PRICES

- All prices in this price list are gross prices (unless otherwise stated), in euro and exclusive VAT.
- All prices are exclusive installation costs.
- RAL surcharges: see overview on the following pages.
- You can find all possible options in a separate table: see possible options (1).
- All optional prices are applicable in combination with a complete product only.  
If there is a deviation from the order, an surcharge will be calculated.
- Options or supplements that are not mentioned: price upon request.
- The price list is subject to change.
- The drawings in this price list are principal drawings.
- The general sales terms and conditions are applicable.

### ORDERING PLATFORM

- We would like to remind the users of the ordering platform e-REPS, that each order integrated in e-REPS and confirmed by NV RENSON®, is considered to be a sale and therefore subject to the general terms of sale of NV RENSON®.

### ORDER CONFIRMATION

- The customer will receive an order confirmation which must be reviewed by the customer.  
If the order confirmation does not match your order, please notify us as soon as possible.
- If a customer wants to change an order after having received an order confirmation, additional fees will apply, depending on the order status.

### DELIVERY DATE

- After receiving your complete order, we can propose a delivery date on our order confirmation.
- This date will only be determined after receiving a completed order form or an e-REPS order.  
If data is missing, the delivery date cannot be determined.
- Products are not kept in stock by definition.  
(Leadtime = time to deliver your order ex-works)

### TRANSPORT COST

- See 'Renson Customers'.

## General

### TAKING BACK

- Taking back goods is only possible in agreement with our commercial department

### ORDER AMENDMENT OR CANCELLATION

- All modifications can only be done with approval from the accountmanager.
- Order amendment or cancellation before the start of production: see possible options (1).
- When modifying or cancelling an order after the start of production, the abovementioned administration costs will be invoiced, as well as the production costs already incurred and any raw materials costs: see possible options (1).

### PAYMENTS

- Except for other written agreements, all NV RENSON® invoices are to be paid by means of a bank transfer, within a period of 30 days after delivery:

NV RENSON® VENTILATION  
BELFIUS BELGIE: BE93 5522 8783 0067  
BIC: GKCCBEBB

### URGENT ORDERS

- Urgent orders will have a different leadtime that deviates from the standard lead time.  
These orders will only be accepted with approval from the account manager.
- An extra cost per urgent order will be calculated: see possible options (1).

### SERVICE

- Separate shipments sent to non-standard delivery address: see possible options (1).
- Separate packing (i.e. per customer/order): see possible options (1).
- Mentioning a reference number on the label: see possible options (1).

### PACKING QUANTITIES

- Each stock article will be pre-packed according to a standard quantity.  
Every order with a non-standard quantity will be invoiced with a reduced discount.

(1) Possible options: see separate table

### INTERVENTIONS

- After consultation:

### GUARANTEES

- See our user manual and guarantee terms and conditions.
- As stated in our guarantee, damages or defects must be specified accurately in the bill of lading and sent by registered letter or fax to NV RENSON® within 48 hours after delivery.

Check for damage or defects and report BEFORE the installation!

Please properly inform your employees or installer(s).

Complaints that are received too late are inadmissible.

- In case of doubt about the quality or correctness of the materials.
  - Do not unpack the materials
  - Do not install the materials

We cannot be held responsible for installed materials that do not satisfy the general voluntary standards!

- Guarantee on Powder coating

For all products applies that the surface of the coated product is perceived at an oblique angle of approximately 60° to the surface, with the naked eye and in natural light conditions (edges, deep recesses and secondary surfaces are not included in the significant surface).

For the coated surface, none of the following defects will be visible at a distance of 3 meters: excessive roughness, runs, blisters, inclusions, craters, dull spots, holes, pits, scratches, or other unacceptable defects.

- The coating will be of uniform color and the gloss will be of good opacity.

When viewed on location, the following criteria must be met:

- components that are used externally: viewed at a distance of 5 m
- components that are used internally: viewed at a distance of 3 m

- Our product guarantee terms and conditions:

- 10-year warranty on all coatings on the aluminium elements
- 5-year warranty on all defects arising from normal home use and regular maintenance
- 5-year warranty on gloss (coatings)
- 2-year warranty on other motors, electronic control and "Detecto set"
- See our guarantee certificate

- In case of changes to the product, the guarantee will be void.

Please check our General Sales Terms and Conditions: see last page of the price list

## GENERAL TERMS OF SALE (replaces previous version)

### 1.) GENERAL

Unless otherwise agreed in writing, these general terms shall apply to all quotations made by NV RENSON VENTILATION, every agreement concluded between NV RENSON VENTILATION and the customer and all invoices by NV RENSON VENTILATION, irrespective of whether the customer's domicile or registered office is in Belgium or abroad and of whether delivery is to be made in Belgium or abroad.

The customer's general terms of purchase shall be applicable only if they are accepted by NV RENSON VENTILATION in writing. In the event of a conflict between the terms of purchase thus accepted and NV RENSON VENTILATION'S current terms, the latter shall always prevail.

### 2.) QUOTATIONS

Unless explicitly stated differently, quotations shall remain valid for 60 days from the date they were drawn up.

Should particular costs increase the prices quoted, beyond NV RENSON VENTILATION'S control, such as an increase in taxes or duties on the products to be supplied, increases in freight rates, increases in the prices of the basic products or raw materials, increases in wages as a result of statutory provision or national or industry collective wage agreements, currency fluctuations, etc., NV RENSON VENTILATION shall be entitled, through simple notification, to make a proportionate price increase.

A variation from the quotation shall also be possible should particular facts, provided by the customer, and necessary for the determination of the price not appear to match reality.

### 3.) NV RENSON VENTILATION'S COMMITMENTS

Any undertakings into which NV RENSON VENTILATION has entered shall be binding only upon written confirmation on its part.

### 4.) CANCELLATION OF ORDERS

In the event of cancellation by the client within 48 hours of his order, confirmed by RENSON NV (base is date of confirmation by RENSON NV), a sum equal to 20 % of the agreed price shall be due, as a contractual, fixed compensation, with the right of NV RENSON VENTILATION to prove greater damage, if this is the case. Cancellation shall in no event be possible after execution of the order has commenced.

### 5.) CONTRACTUAL RELATIONSHIP

All agreements between NV RENSON VENTILATION and the customer shall be part of an overall contractual relationship. Should the customer not meet his undertakings arising under a particular agreement, NV RENSON VENTILATION may defer further performance of both the agreement in question and all other current agreements.

### 6.) PRICES

a) Unless otherwise agreed in writing, prices shall include all drawings specifically needed for the goods bought from NV RENSON VENTILATION. Unless otherwise agreed in writing, neither assembly nor installation of the goods nor fastening materials shall be included in the price.

b) Should particular costs having an influence on the agreed price through circumstances beyond NV RENSON VENTILATION'S control, such as an increase in taxes or duties on the products to be supplied, increases in freight rates, increases in the prices of the basic products or raw materials, increases in wages as a result of statutory provision or national or industry collective wage agreements, currency fluctuations, etc., NV RENSON VENTILATION shall be entitled, through simple notification, to make a proportionate price increase.

### 7.) DELIVERY

a) Unless otherwise agreed in writing, all agreements with the customer concluded by NV RENSON VENTILATION shall apply to works. As a result, NV RENSON VENTILATION shall have met its duty to deliver from the moment it has put the goods at the disposal of the customer on its premises. The customer can always have himself represented. If, for any reason, the goods are not collected by the customer on the delivery date, the merchandise shall remain on NV RENSON VENTILATION'S premises on the customer's account and at his risk including the risk of fire. Unless otherwise agreed in writing, the customer shall bear all costs related to the transport of the goods from NV RENSON VENTILATION'S premises to the desired destination even where carriage paid delivery is agreed.

b) Agreed delivery times are indicative, unless otherwise agreed in writing. Delivery terms shall be respected as much as possible. Overturning the delivery term cannot entail any liability on the part of NV RENSON VENTILATION neither can it lead to annulling the agreement.

c) The customer shall be bound to check the goods as far as for good condition and number before taking possession of them and making the necessary, written and specified objections if any to the carrier, who shall be solely liable. Goods shall be returned at the expense and risk of the customer.

d) Changes to the order - if accepted by NV RENSON VENTILATION - automatically mean that the delivery date previously set will be postponed. The period of late advance payments shall automatically be added to the delivery date.

### 8.) FORCE MAJEURE

NV RENSON VENTILATION cannot be held liable in case non-compliance with its commitments is caused by acts of force majeure such as war, riot, partial or general strike, partial or general lockout, infectious disease, industrial accident, fire, breakage of machinery, insolvency of supplier, shortage of raw materials, etc. Force majeure shall in no event entitle the customer to annul the agreement or to claim damages.

### 9.) REFUSAL OF GOODS/DEFAULT BY THE CUSTOMER

If the customer refuses delivery of the goods purchased or does not meet his obligations towards NV RENSON VENTILATION, NV RENSON VENTILATION may opt for breaking up the entire agreement or part thereof subject to damages or else for enforced execution of the order. It shall be sufficient for NV RENSON VENTILATION to make its will known explicitly.

Any termination of the contract, will be judicial and without any prior notice of default or judicial intervention, if notified by registered letter. The customer shall thereby be bound towards NV RENSON VENTILATION to compensate all damages incurred including loss of profit, administrative costs, transport costs, storage costs, etc.

Furthermore, NV RENSON VENTILATION shall be entitled to defer further execution of both the agreement concerned and other current agreements as a whole or in part.

### 10.) DEFECTS

a) Upon delivery the customer shall check, whether the goods delivered show visible damage or defects. Visible damage or defects must be reported by the customer, in a clear and specific way, to the forwarder through remarks on the packing list, and to RENSON NV by means of a registered letter or a fax within 48 hours after delivery. Late complaints will not be accepted.

b) A complaint concerning hidden defects must be made by registered letter not later than one month after delivery. Late complaints will not be accepted.

c) In the event of an acceptable and justified complaint regarding defects in the goods, NV RENSON VENTILATION shall replace or repair the goods delivered. NV RENSON VENTILATION may in no event be held to any other compensation and neither can any other penalty be imposed upon it.

### 11.) ASSEMBLY AND INSTALLATION

Assembly and installation can never fall under the agreement between NV RENSON VENTILATION and the customer. The customer must at his own expense provide all support and materials required for assembly and installation.

### 12.) MAINTENANCE BY THE CUSTOMER

(RELATES TO SUN PROTECTION SYSTEMS AND CONTINUOUS LOUVER SYSTEMS)

The customer shall be bound to carry out an annual inspection and maintenance of the sun protection system and continuous louvers and in particular of the fixation of the sun protection system, their components and the louvers.

13.) WARRANTY BY NV RENSON VENTILATION (RELATES TO SUN PROTECTION SYSTEMS AND CONTINUOUS LOUVER SYSTEMS)

a) For a period of one year from delivery, NV RENSON VENTILATION warrants that, in the event of a defect in a sun protection system or continuous louvre system manufactured by NV RENSON VENTILATION and installed in accordance with NV RENSON VENTILATION'S instructions, it will repair or replace any defective parts. NV RENSON VENTILATION may not be held liable for any other compensation or penalty under the warranty as provided by this clause.

b) Neither the primary structure to which nor the manner in which the sun protection system and continuous louvers are fixed (type of fastenings, number, etc.) are determined by NV RENSON VENTILATION. When sending out quotations as well as executing orders, NV RENSON VENTILATION assumes, unless otherwise specified explicitly, that the sun protection system and continuous louvers will be installed and assembled in conformity with NV RENSON VENTILATION'S instructions and will be fixed to a steel or concrete structure.

c) At the customer's request, RENSON NV can provide initial advice on the wind loads on sun protection system and continuous louvers. However, in doing so, NV RENSON VENTILATION does not give an explicit nor implicit guarantee. Such studies must be carried out by specialized engineering bureaux.

d) All claims under the warranty provided by this clause shall expire in case of :

- improper use, including defects in the primary structure, defects in the fixing of the sun protection system or construction;
- non-compliance with clause 12 of these terms, i.e. inadequate maintenance of the sun protection system or continuous louver system
- defects resulting from improper intervention by the customer or a third party including defects in the installation and assembly of the sun protection system or continuous louver system
- defects caused by wind loads or the force of other natural elements on the sun protection system or continuous louver system
- installation of the sun protection system with components other than those supplied by NV RENSON VENTILATION.

### 14.) TAXES

In the absence of a written agreement to the contrary, all taxes shall be borne solely by the customer. A possible change in the amount of taxes can never be ground for breaking up the agreement.

### 15.) ACCEPTANCE OF INVOICE - PAYMENT

Every invoice shall be deemed to have been accepted 8 days from its dispatch unless a written objection is received by registered letter.

All invoices shall be payable at NV RENSON VENTILATION'S registered office. Payment by transfer, bill of exchange or any other method from abroad does not change this regulation nor shall it imply any debt novation.

In the absence of a written agreement to the contrary, NV RENSON VENTILATION'S invoices shall be payable as follows:

- A. For the sun protection system or continuous louvre systems:
  - an initial instalment of 30% of the total agreed price must be paid within a period of three days of the customer placing the order.
  - a second instalment of 30% of the total agreed price must be paid prior to the anticipated delivery date.
  - the balance of 40% of the total agreed price must be within 30 days from delivery.

B. For all other products : the total agreed price must be paid within a period of 30 days from delivery.

Unless otherwise agreed in writing, payment must be made in Euros. All payment costs must be borne by the customer.

If NV RENSON VENTILATION'S faith in the creditworthiness of the customer is shaken by acts of judicial actions against the customer and/or other provable events that put in question or render impossible faith in the proper fulfilment of the customer's obligations, NV RENSON VENTILATION reserves the right to postpone the entire order or part thereof even if the goods have already been dispatched wholly or in part and to demand suitable guarantees of the customer. If the customer refuses to provide these, NV RENSON VENTILATION reserves the right to cancel the entire order or part thereof. All of the above shall apply without prejudice to NV RENSON VENTILATION'S rights to damages and interest.

In the event of total or partial non-payment on the due date, unsettled invoices shall be subject, judicially and without prior notice of default, to late payment interest at a rate of 12% per annum and, after notice of default has been given without any result, the outstanding balance shall be increased by 10% of the invoice amount with a minimum of 125 Euro even when a deferred payment has been allowed.

Non-payment of an individual invoice on the due date shall render the outstanding balance of all other invoices, due or not, payable immediately by of right.

### 16.) INTELLECTUAL AND INDUSTRIAL PROPERTY RIGHTS

All intellectual and industrial property rights relating to drawings, designs, calculations, etc. executed by NV RENSON VENTILATION on the customer's behalf and handed over to the customer shall remain the property of NV RENSON VENTILATION and may only be disclosed or used by the customer to execute the present agreement.

### 17.) RIGHT OF OWNERSHIP

Goods supplied to the customer by NV RENSON VENTILATION shall remain the property of the latter until all payments due, including interest and costs, have been paid by the customer to Renson.

The client undertakes not to sell, process or assign the goods, subject to the right of ownership, as long as they are not fully paid for.

Advance payments remain with NV RENSON VENTILATION as a compensation for any possible loss on resale.

### 18.) APPLICABLE LAW AND JURISDICTION OF JURISDICTION

Any conflicts between the customer and NV RENSON VENTILATION shall be subject to the sole jurisdiction of the competent courts in the judicial district of Kortrijk.

The relationship between the customer and NV RENSON VENTILATION shall be governed exclusively by Belgian law.

### 19.) INDEPENDENCE OF CLAUSES - DUTCH TEXT

The fact that one or more stipulations of these terms might prove to be invalid, can never influence the applicability of the remaining clauses.

In the event of a dispute regarding the interpretation of these terms, the Dutch text shall always prevail.
